**DETAILED ACTION**

***Election/Restrictions***

Claims 13-15 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected election, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 5/27/07.

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Saidman et al 5,197,800.

Saidman et al show a system for spraying comprising a source 20,36, dosing unit 13 and a control signal 65.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3754

Claims 9-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Saidman et al.

Saidman et al lacks the dispensed material PVC or glass. It would have been obvious to one of ordinary skill in the art to have substituted the material of Saidman et al with PVC or glass depending on the users desired application which is an obvious choice in design.

***Allowable Subject Matter***

Claim 13 is allowed.

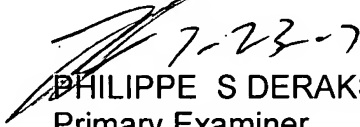

Claims 2-7 and 11-12 are objected to being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
